

Pressed Flower Sun Catcher

Materials

2 plastic produce containers or 2 pieces of acetate (from a report cover)
12" piece of ribbon or cording
Dried flowers of your choice
White school glue
Scissors and hole punch
Washi tape

Instructions

1. Cut the flat top section of each produce container to make 2 equal sized squares or cut 2 equal sized squares or diamond shapes from the acetate.
2. Arrange the pressed flowers on one of the squares and adhere them with a dot of white glue.
3. Put the second square on top of the flowers.
4. Wrap the tape around the edges to hold the pieces together.
5. Punch a hole in the center of the top of the sun catcher.
6. Thread the ribbon or cord through the hole and tie a knot.
